VISION HEADROOM DOESN'T HAVE TO BE A DRAG

It used to be that more headroom made your ride cut the air like a cinder block. The Vision Series changes all that. Its graceful wedge-shaped style gives you extra storage space without sacrificing aerodynamics. More space, less friction. How cool is that?

VISION

ULTRA RIDE *Seen on Cover

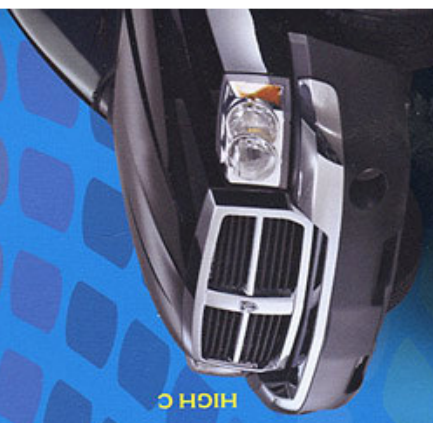

The Ultra Series' clean, traditional styling turns even the hardest working truck into a showpiece. Rugged construction makes sure it stays that way. Throw in popular options like side access windoors and carpeted interior, and you get value that's tough to beat.

ULTRA

NOUVEAU SO THIS IS WHAT COOL LOOKS LIKE

The Nouveau Series sports a unique split-window design to make your truck custom-cool. The sleek lines and carpeted interior, along with frameless windows and rear door will draw stares from even the biggest truck snob.

HIGH C

ROYAL

ROYAL BEAUTY FOR YOUR BEAST

Start with the industry's first all-glass, compound-curved rear door. Add a flush-mounted LED third brake light and curved side windows. Finish it off with sleek, flowing lines and a tight fit. The result is the Royal Series, the grooviest cap on the market that can give your everyday workhorse the look of a luxury SUV.

T-CLASS

HIGH C THE DIFFERENCE BETWEEN HAULING & HAULIN'

Whether you're outdoors, off-road or on the job, sometimes you just need extra room for your stuff. The High C's additional interior height can handle more supplies and bulkier cargo. Built with Century's superior construction and eye-catching style, the High C Series is the perfect cap for active truck lovers.

T-CLASS LOOKS AREN'T EVERYTHING OKAY, YES THEY ARE.

Sure, T-Class Series caps are the tallest in Century's lineup, giving you ridiculous amounts of cargo space. But we designed this molded fiberglass cap to flow smoothly into the lines of your truck's body styling. We also added a wide range of different window options. At Century, "useful" will never mean "dull."

Evolution

**TELL MOM
YOU FINALLY MADE
YOUR BED**

So that truck bed of yours just isn't making it? The Evolution Series has a low-profile design and stylized roof lines that will take that boring bed from "ho-hum" to "shaggadelic, baby." Add on the extras from our Signature Series, and watch your truck go from nice to naughty.

EVOLUTION

CARGO

SETTLE
FOR
MORE

CARGO

Who said simple has to be boring? With its custom fit and smooth top, the Cargo Series gives your ride more than functionality, it gives it personality. When it comes to simple solutions, the Cargo Series will give you more than you expect.
